

EQUATION 1 :

$$3 \times \text{eggplant} = 45$$

$$\text{eggplant} + 2 \times \text{apple} = 55$$

$$\text{eggplant} + \text{orange} + \text{mushroom} = 65$$

 = 15	 = 20	 = 30
----------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------

EQUATION 3 :

$$\text{grapes} + \text{grapes} + \text{grapes} = 1,8$$

$$\text{grapes} - \text{apple} = 0,3$$

$$\text{grapes} + \text{apple} + \text{orange} = 1,9$$

 = 0,6	 = 0,3	 = 1
-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

EQUATION 2 :

$$\text{eggplant} + \text{apple} + \text{apple} = 7,5$$

$$\text{eggplant} + \text{apple} + \text{apple} = 5,5$$

$$\text{eggplant} + \text{apple} + \text{apple} = 10$$

 = 2,5	 = 1,5	 = 6
-----------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------

EQUATION 4 :

$$\text{strawberry} - \text{banana} = 1$$

$$\text{tomato} - \text{banana} = 0,1$$

$$3 \times \text{tomato} = 2,1$$

 = 0,7	 = 1,6	 = 0,6
-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------
